

Aim:

Write a program to demonstrate constructor class

Source Code:Student.java

```
class Student{
    int num;
    String name;
    void display(){
        System.out.println(num+" "+name);
    }
    public static void main(String args[])
    {
        Student s1=new Student();
        Student s2=new Student();
        s1.display();
        s2.display();
    }
}
```

Execution Results - All test cases have succeeded!

| Test Case - 1 |
|---------------|
| User Output |
| 0 null |
| 0 null |
